

参与方式

Participation methods

第一步：微信扫码（WeChat QR code scanning）

微信扫码加入
深圳北理莫斯科大学

第二步：输入正确学号，确定进入系统

（Enter the correct student ID and confirm entering the system）

The screenshot shows a mobile app interface with a blue header bar. The status bar at the top displays the time 13:39, signal strength, Wi-Fi, and battery level at 64%. The header bar contains a back arrow, the title '填写学校/School加入信息', and a menu icon. Below the header, there are two sections: '活动信息/Activity Information' and '个人信息/Personal Information'. Under '活动信息/Activity Information', there is a label '学校/School' and a text input field containing '深圳北理莫斯科大学'. Under '个人信息/Personal Information', there is a label '学号StudentID' and a text input field with a red border and the placeholder text '请输入'. At the bottom, there is a blue button labeled '确定'.

第三步：进入比赛页面，提前查看规则说明，了解操作界面，熟悉流程

（Enter the competition page, view the rule description, understand the operation interface, and

familiarize yourself with the process)

第四步：运动数据记录（Motion data recording）

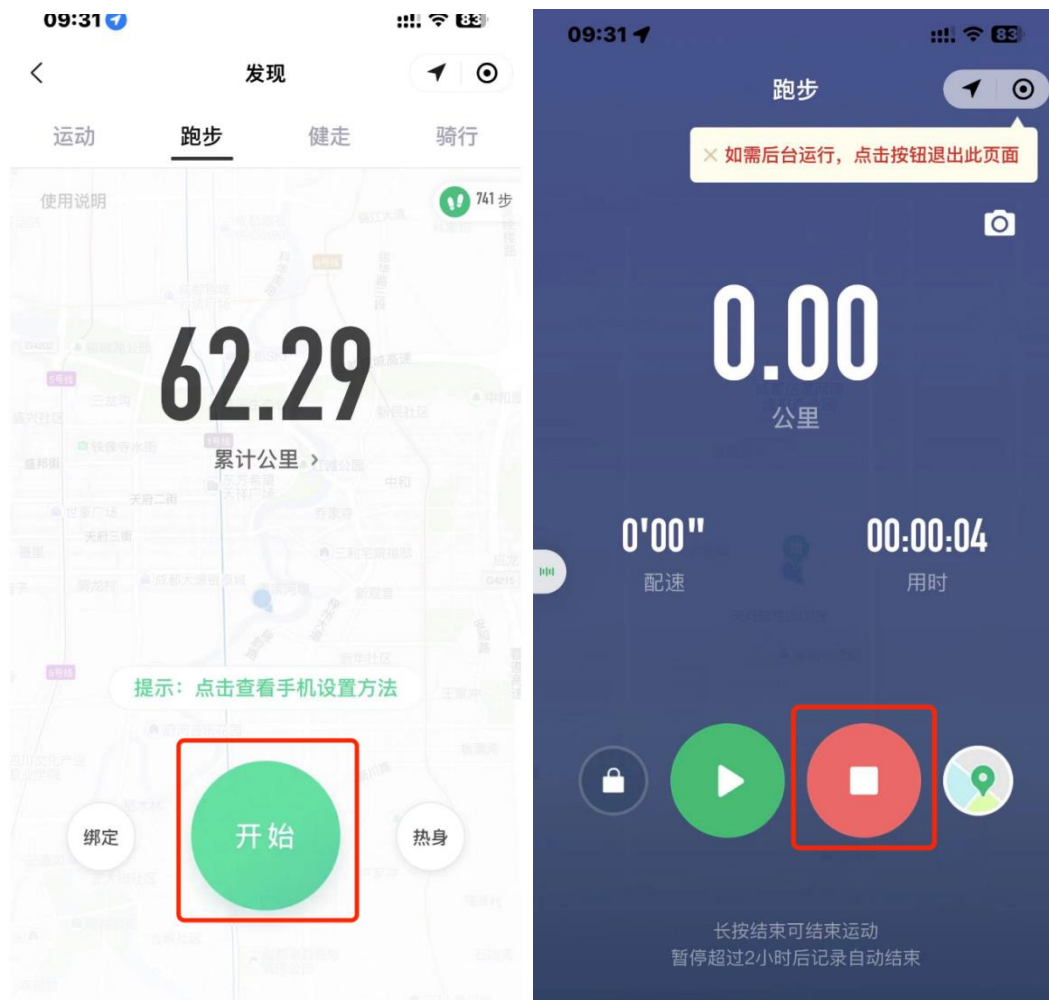

本次活动为 GPS 里程排位赛，每次运动时需在户外打开软件，选择“跑步”或“健走”模式记录运动轨迹，常用的 2 个记录入口按钮如下：

（This event is a GPS mileage ranking competition. During each exercise, you need to open the software outdoors and select the "Run" or "Walk" mode to record your workout trajectory. The two commonly used recording entry buttons are as follows:）

运动开始时点击“开始”，完成时点“结束”。完成后符合比赛要求的数据会自动进入成绩。一次运动，符合要求数据会自动同时进入 2 个比赛（个人赛、班级赛）。

（Click "Start" at the beginning of the exercise and "End" at the completion time. After completion, data that meets the competition requirements will automatically enter the score. For a sport, data that meets the requirements will automatically enter two competitions (individual competition and class competition) simultaneously.）

注意事项：（Precautions）

1、需要在户外、手机完全定位准确后再开始记录，为了减少数据误差运动中尽量不打电话或使用其他软件。

（It is necessary to start recording outdoors and with complete and accurate positioning of mobile phones. In order to reduce data errors, it is recommended to avoid making phone calls or using other software during exercise.）

2、比赛开始前，建议自行测试和试用软件，熟悉操作流程，测试记录数据是否准确，如企业咕咚小程序记录误差太大，请先检查手机设置是否正确；同时也建议下载和关联咕咚 APP 作为运动数据源，数据相对更准确，操作流程可以在“我的” — “运动数据源”看到，按照提示下载咕咚 APP，并关联咕咚 APP，运动时就不用企业咕咚小程序记录，直接用咕咚 APP 记录数据即可。

（Before the competition starts, it is recommended to test and try out the software on your own, familiarize yourself with the operating procedures, and test whether the recorded data is accurate. If the recording error of the enterprise Gudong mini program is too large, please first check whether the phone settings are correct; It is also recommended to download and associate the Gudong APP as a sports data source, which is relatively more accurate. The operation process can be seen in "My" - "Sports Data Source". Follow the prompts to download the Gudong APP and associate it with the Gudong APP. When exercising, there is no need to record the enterprise Gudong mini program. Simply use the Gudong APP to record the data.）

3、活动中如有数据被系统判定为异常，可直接点击数据详情页的红色三角形申诉，企业咕咚工作人员会核实处理，非作弊数据都会恢复。

（If any data is deemed abnormal by the system during the activity, you can directly click on the red triangle appeal on the data details page. The company's codoon staff will verify and handle it, and non cheating data will be restored.）

4、本次活动要求运动位置必须为学校操场附近，其他位置运动数据不计入成绩。开始和结束时间在早上 6-8 点期间数据:单条大于 2 公里乘以 1.5 倍；单条小于 2 公里乘以 1.25 倍。其他时间段正常计算不加倍。跑步配速要求 3-8 分钟/公里。每人每日上限 5 公里。

(This activity requires that the sports location must be near the school playground, and sports data from other locations will not be included in the grades. The start and end times are between 6-8 a.m. Data: a single line greater than 2 kilometers multiplied by 1.5 times; A single line is less than 2 kilometers multiplied by 1.25 times. Normal calculations for other time periods do not double. The running pace requires 3-8 minutes/kilometer. The daily limit for each person is 5 kilometers.)

5、常见标识英文对照（Common operation buttons in both Chinese and English）
